

*HAUSTERN ENSURES
A GREAT KITCHEN
EXPERIENCE WITH ITS
GRANITE SINK.*

Many describe that a perfect life is to have a lot of things with certain benchmarks to meet. Nonetheless, that is not necessarily healthy for one; the secret is to include the right things in life. A perfect life exists when quality is maximised and Haustern offers you just that.

Offering the best of German engineering, Haustern's exquisite granite sinks deliver on all levels: functionality, aesthetics and ergonomics. Made from 80 per cent natural granite, this robust-looking sink is highly durable, withstanding heat up to 300 degrees Celcius. So you no longer have to worry about hurriedly placing your sizzling pan and hot boiling kettle into the kitchen sink before rushing out the door.

The sink's non-porous surface means cleaning time can be reduced and maintenance is made easier than ever. With hygiene well taken care of, Haustern takes everlasting beauty seriously too. Its granite sinks are incapable of suffering dents, scratches and even tough stains - an added brownie point to all homemakers' concern.

Haustern subjects meticulous processing and strict testing to all its products and its granite sinks are no exception. Elegantly designed with a minimalist approach, the sink also creates a further sensational kitchen wonder with Haustern's all-new tri-flow faucet that brings your home closer to perfection. ❖
